

AURAKON

Frontend & UI/UX

Visualizing the User as a Warrior — The Progression Journey

Aurakon doesn't show the user a percentage. It shows them a warrior. Every stat in the app — XP, levels, streaks, ranks — is expressed as a visual state on a character and a journey, so progress is something you see, not something you read.

1. Entering the Journey

The warrior scene shown before sign-in.

- A warrior silhouette stands inside animated, glowing rings
- Drifting particles and a lightning-style reveal play once on arrival
- The sign-in form sits beside the scene, not on top of it — the tone is set before login

2. The Warrior Avatar

Male warrior, five of the nine stages shown — New Soul → Legendary Soul.

Female warrior, the same five stages — New Soul → Legendary Soul.

- 9 art stages per character, tied directly to rank tier (18 pieces total: male + female)
- Crossfades to the next stage on rank-up — no jump cut, no pop-up
- The avatar is the dashboard's full background, not a small icon in a corner
- Overlaid with name, level, current title, and an XP bar toward the next rank

3. The Rank Ladder — “Your Journey”

All 9 rank emblems — rank 1 (worn stone) to rank 9 (gold wings).

- Locked — dim, desaturated stone; not yet reached
- Achieved — softly lit, sealed with a checkmark
- Current — blazing glow with drifting embers; this is the rank in progress
- The glow color itself shifts from arcane purple to radiant gold as rank rises

Rank Title	Unlocks At
New Soul	The journey begins
Disciplined Mind	500+ XP
Elite Disciple	1,500+ XP
Rising Warrior	3,500+ XP
Iron Will	7,500+ XP
Aura Master	15,000+ XP
Commander	30,000+ XP
Mythic Champion	55,000+ XP
Legendary Soul	90,000+ XP

4. The Daily HUD

XP · Level · Streak · Shield · Pending Review · Titles · Aura Energy

- XP & Level — worn as a badge on the avatar, not buried in a stats page
- Streak — a flame counter per habit, plus one global streak
- Shield — earned protection that absorbs a missed day without breaking a streak
- Pending Review — a past day waiting for a yes/no before it counts
- Titles — how many ranks have been reached so far
- Aura Energy — today's completion, shown as a glowing bar that pulses on each check-in

5. Habits as Quests

Each habit is a quest row, not a plain checklist item.

- Colored edge = difficulty (green / yellow / red for easy / medium / hard)
- Flame + number = current streak on that habit
- Tag = the XP reward for completing it
- Badge = a past day is waiting for review before it counts

6. Ambient Game Feel

Underneath all of it, the dashboard carries a constant, low-level motion — floating sparkles, rising embers, and soft gold particles drifting behind the journey panel. None of it is interactive; it just keeps the world feeling alive rather than static.
